

How to Grade Your Dog's Food

Start with a grade of 100

- 1) For every listing of "by-product", subtract 10 points
- 2) For every non-specific animal source ("meat" or "poultry", meat, meal or fat) reference, subtract 10 points
- 3) If the food contains BHA, BHT, or ethoxyquin, subtract 10 points
- 4) For every grain "mill run" or non-specific grain source, subtract 5 points
- 5) If the same grain ingredient is used 2 or more times in the first five ingredients (i.e. "ground brown rice", "brewer's rice", "rice flour" are all the same grain), subtract 5 points
- 6) If the protein sources are not meat meal and there are less than 2 meats in the top 3 ingredients, subtract 3 points
- 7) If it contains any artificial colorants, subtract 3 points
- 8) If it contains ground corn or whole grain corn, subtract 3 points
- 9) If corn is listed in the top 5 ingredients, subtract 2 more points
- 10) If the food contains any animal fat other than fish oil, subtract 2 points
- 11) If lamb is the only animal protein source (unless your dog is allergic to other protein sources), subtract 2 points
- 12) If it contains soy or soybeans, subtract 2 points
- 13) If it contains wheat (unless you know that your dog isn't allergic to wheat), subtract 2 points
- 14) If it contains beef (unless you know that your dog isn't allergic to beef), subtract 1 point
- 15) If it contains salt, subtract 1 point

Extra Credit:

- 1) If any of the meat sources are organic, add 5 points
- 2) If the food is endorsed by any major breed group or nutritionist, add 5 points
- 3) If the food is baked not extruded, add 5 points
- 4) If the food contains probiotics, add 3 points
- 5) If the food contains fruit, add 3 points
- 6) If the food contains vegetables (NOT corn or other grains), add 3 points
- 7) If the animal sources are hormone-free and antibiotic-free, add 2 points
- 8) If the food contains barley, add 2 points
- 9) If the food contains flax seed oil (not just the seeds), add 2 points
- 10) If the food contains oats or oatmeal, add 1 point
- 11) If the food contains sunflower oil, add 1 point
- 12) For every different specific animal protein source (other than the first one; count "chicken" and "chicken meal" as only one protein source, but "chicken" and "" as 2 different sources), add 1 point
- 13) If it contains glucosamine and chondroitin, add 1 point
- 14) If the vegetables have been tested for pesticides and are pesticide-free, add 1 point

Score:94-100+	=A
86-93	=B
78-85	=C
70-77	=D
69 -	=F

Scores:

Here are some foods that have already been scored:
